## **Just a Reminder:**

Please make sure your household trash & garbage are in plastic garbage bags before putting it in the bear proof containers. If the bear proof container is full please let us know. We do have replacement bags for the bear containers.

## **Klukwan Recycle Center has Moved!**

Recycle Center is now located in the connexes behind the CIV Office. All electronic waste needs to be taken to the white connex at the recycle center. If you need assistance at the recycle center or getting your recyclables to the recycle center; stop by the CIV office or call at 767-5505 and talk with Daniel Klanott ext. 224 or Pat Warren ext. 226.

### **Every Other Thursday is the recycle pick-up.**

**Below is the 2014 Recycle Pick-Up Schedule:**

May 1, 15 and 29; June 12 and 26; July 10 and 24; Aug 7 and 21; Sept 4 and 18;

Oct 2, 16 and 30; Nov 13 and 26; Dec 11 and 23

### **Waste-Oil Furnace**

We are still in need of waste oil for the Fire Hall waste oil furnace. The types of oil the furnace takes are used engine oil, transmission fluid, and number 2 diesel oil. If you change your vehicle oil please call the CIV office at 767-5505 ask for Brian Willard ext 231 or Don Hotch Jr. ext. 229 and we can come and get your waste oil for the furnace.

### **Recycling Tips**

How to recycle:

Aluminum Cans: Rinse, drain, and put in Bin for transport to recycling center. (No foil / Pie Plates, cat food cans etc.)

Tin Cans: Rinsed, flattened, and labels off

Plastic Bottles & Jugs: p<sup>1</sup> – Green & Clear Soda Bottles & Jugs (All containers need to be rinsed out and lids removed)

P<sup>2</sup> – All Colors including white (All containers need to be rinsed out and lids removed)

Cloudy Plastic Jugs.

Glass can be taken to Bigfoot. Glass needs to be rinsed. There is a fenced area behind Bigfoot where you can throw your unwanted glass containers.

**Used lead-acid batteries can be taken to Bigfoot. Bigfoot now takes used lead-acid batteries at no charge.**

### **Electronic Waste (E-Waste)**

E-Waste is used computers, cell phones, TVs, and VCRs. Some materials, such as lead, nickel, cadmium and mercury could pose threats to human health and the environment if mismanaged at their end-of-life. Keeping used electronics out of the landfills, to recover materials and the environmental impacts and energy demands from mining and manufacturing will lengthen the life of the landfill. Recycling electronics recovers valuable materials and as a result, we reduce greenhouse emissions, reduce pollution, save energy and save resources by extracting fewer raw materials from the earth.

If you have any e-waste, call the CIV office, 767-5505 and ask for Daniel Klanott or Pat Warren.

### **Garbage Pick-up Hours:**

Pick-up now starts at 8:30 am—12 pm!!!

Garbage Pick-up will be two (2) times a week. Tuesday & Friday

**Stay Bear Aware in the winter too!!**

**Thank You to all the people who are up to date with their Water and Sewer Utilities**

**This keeps Klukwan's water flowing.**

# **Spring is Here!**

May is Spring Clean-Up Month: Call the CIV Office at 767-5505 to let us know if you have items to be taken to the landfill.

There will be no extra charge for your larger items for the month of May.

## Aluminum Cans

The life of an aluminum can begins in some far off factory where it is made. This aluminum can is sent to some beverage company and filled with beverages; then it is loaded on a delivery truck, and taken to a wholesaler, who distributes it to a retail store for you and me to buy. We consume the beverage; then the can is empty. The choice is up to us. Do we throw it away to be in our ground for five hundred years? Or do we recycle it so it can be reused? To those of you, who do not recycle your aluminum cans, please start.

**Amazing how long things last when we think we have thrown them away.**
