## **Public HEALTH Announcement**

### **HOW COVID-19 SPREADS**

The CDC states that the virus is spread mainly from person-to-person, between individuals in close contact, through an infected cough or sneeze. It may be possible that a person can acquire COVID-19 by touching an infected surface, or object, and transferring to one's own mouth, nose, or eyes, but this is not thought to be the main way the virus spreads.

**For the safety of our Elders and those suffering from chronic medical issues-We ask that everyone follow these guidelines!!**

If you are aware of people planning to visit Klukwan in the next two weeks, please let them know the Tribe recommends they postpone their travel to our community. [This does not apply to people whose primary, year-round residence is Klukwan.]

When returning to Klukwan FROM ANYWHERE OUTSIDE THE CHILKAT VALLEY, we ask that you self-quarantine for 14 days. The tribal government can assist in logistics of a self-quarantine.

Avoid all unnecessary travel outside of the Valley.

Please cancel all non-essential meetings or gatherings or hold them via teleconference until further notice.

Practice social distancing at all times and in all public and private gatherings (six feet apart recommended)
